ABOUT

Freelance Functional Analyst with 11 years of experience in the information technology sector (banking, insurance, online brokerage). Specialized in Web and Mobile, I also have 8 years of practice in agile methodology. I intervene on both requirements analysis and detailed solution design, always ensuring clarity at each step for technical teams and stakeholders. My role is to understand expectations, model processes, define business rules, and propose coherent functional solutions.

I place importance on clarity of communication, listening to users, and transforming their expectations into simple and effective solutions. Always attentive to digital developments, I aim to contribute to projects that bring real value to users.

CORE COMPETENCIES

Analysis & Requirements Definition

- Facilitating business workshops and gathering requirements
- Analysis of existing systems
- Translating business needs into functional requirements
- Risk assessment and impact analysis

Design & Specification

- Writing detailed functional specifications (FSD)
- Writing User Stories (US) for the development team
- Business process modeling (UML, BPMN)
- User journey design (wireframes and functional mockups)

Validation & Quality Assurance

- Writing and executing test scenarios (Cucumber-Gherkin)
- Supporting users during acceptance testing (UAT)
- Issue diagnosis and tracking corrections

TECHNICAL ENVIRONMENT

ANALYSIS & SPECS

Atlassian Suite | Swagger | OpenAPI | Visual Studio Code | Antigravity | GitHub

WIREFRAME & MODELING

Figma | Balsamiq | Axure | Draw.io | Visio | Enterprise Architect | Suite Adobe

TESTING & ISSUE TRACKING

JIRA Xray | TestFlight | BrowserStack | Postman | SoapUI

ENVIRONMENTS & LANGUAGES

Android | iOS | React | Angular | JavaScript | Java | .NET | HTML / CSS | XML / JSON | MySQL

Méthodologies de projet

Scrum | Kanban | Cycle en V

Soft Skills

Adaptability | Analytical Thinking & Initiative | Teamwork | Continuous Learning

Languages

French — Native | English — B2 Level

IA & Analyse Fonctionnelle

Active Self-Training

AI as a lever to structure my deliverables, accelerate analysis, and free up time for decision-making. (Claude, Kimi, Copilot, etc.)

RÉDACTION AUGMENTÉE

AI-assisted production of User Stories, specifications, and acceptance criteria, with business supervision.

MODÉLISATION DES FLUX

Transforming narrative descriptions into activity and sequence diagrams (UML/BPMN).

ANALYSE DOCUMENTAIRE

Rapid extraction of actionable requirements from complex documentary sources.

PROFESSIONAL EXPERIENCE

Functional Analyst (Freelance Consultant)

Juillet 2025 — Avril 2026

Velan Solutions Conseil Numérique Inc. (Desjardins Mandate), Montreal, QC — www.disnat.com

KEY CONTRIBUTIONS

- Analysis and documentation of business needs, writing of functional requirements and tailored recommendations, with creation of acceptance criteria in Gherkin language.
- Creation and updating of API service contracts with technical teams.
- Writing and execution of functional tests.
- Collaboration with the Product Owner on product design and gathering requirements from stakeholders (UX, UI, Marketing...)
- Supporting developers in understanding and implementing the solution.

ENVIRONNEMENT TECHNIQUE

React | Angular | Kotlin | Swift | OpenAPI | Java | SQL

RÉALISATION Within the Online Brokerage and Brokerage Operations Direction, I joined a team of more than 20 people dedicated to optimizing the web and mobile journeys of the Disnat application. I led the analysis and complete design of the mutual fund transaction journey on iOS and Android mobile applications — from category search to transaction execution (buy/sell), including documentation of API interfaces with back-end systems.

Functional Analyst (Consultant)

Mars 2023 — Juillet 2025

Levio Conseil Inc. (Hydro-Québec Mandate), Montreal, QC — www.hydroquebec.com

KEY CONTRIBUTIONS

- Analysis and documentation of existing functionalities.
- Documentation of activity and sequence flow diagrams (Payment transaction flows).
- Documentation and execution of functional test cases in Jira X-Ray (Gherkin/Cucumber).
- Working in collaboration with the solution architect and participating in recommendations.
- Identifying anomalies and ensuring follow-up of proposed corrections.

ENVIRONNEMENT TECHNIQUE

.Net | Control-M | AWS | SQL

RÉALISATION Within the Corporate Products and Customer Direction, I joined a team of 10 people as part of the technological migration of the fund management application (replacing BizTalk with AWS). I analyzed and documented existing incoming and outgoing payment transaction flows via Control-M, and produced the complete mapping in the form of activity and sequence diagrams (UML) to support the architecture transition. During the delivery phase, I coordinated functional and non-regression tests on the new AWS environment, ensuring flow compliance before production deployment.

Senior Functional Analyst

Mars 2022 — Janvier 2023

Banque Nationale du Canada, Montréal, QC — www.bnc.ca

KEY CONTRIBUTIONS

- Functional analysis of business needs in terms of regulatory compliance and customer due diligence.
- Writing functional specifications and participating in the configuration of the Fen-X tool.
- Close collaboration with business teams (compliance, legal) and technical teams (developers, architects) to align regulatory requirements with platform capabilities.
- Contribution to the integration of KYC/AML workflows into the SaaS interface.
- Documentation of functional test cases in Jira X-Ray (Gherkin/Cucumber) and validation of test scenarios.

ENVIRONNEMENT TECHNIQUE

SaaS | Java | APIs

RÉALISATION Within the IT Delivery Direction - Cybercrimes, I joined a team of 10 people responsible for modernizing the regulatory compliance solutions applied during customer onboarding (KYC, AML, CRS-FATCA). I contributed to the technological migration of compliance processes to Fen-X (Fenergo), a SaaS platform dedicated to customer lifecycle management (CLM).

Functional Analyst

Mars 2020 — Février 2022

Desjardins Technology Group, Lévis, QC — www.desjardins.com

KEY CONTRIBUTIONS

- Analyze business needs and translate them into clear, actionable functional requirements
- Produce detailed functional specifications and recommend suitable solutions (including impact analysis)
- Closely collaborate with architects, technical teams, and stakeholders to align solutions
- Design and execute test strategies (functional, integration, regression) to ensure delivery quality
- Provide support to development teams and ensure anomaly tracking until resolution
- Communicate progress and ensure quality and documentation of deliverables

ENVIRONNEMENT TECHNIQUE

Angular | React | Java | APIs

RÉALISATION Within the Auto Solutions Direction (Desjardins General Insurance Group), I contributed to a major web overhaul program (graphic and application) called AutoQc, an automobile insurance subscription solution, within a multidisciplinary team of more than 200 collaborators.

Functional Analyst (Consultant)

Mars 2019 — Janvier 2020

Extia (Orange Bank Mandate), France — www.orangebank.ci

KEY CONTRIBUTIONS

- Gather and frame requirements in collaboration with the Product Owner and stakeholders (UX, Marketing, Back-Office, Compliance, Customer Relations)
- Contribute to solution design with architecture teams (functional and technical)
- Write detailed functional specifications and acceptance criteria
- Support development teams in implementation and arbitrating technical constraints
- Design and execute functional tests to ensure delivery quality
- Train business users and facilitate solution adoption
- Identify risks, track progress, and ensure regular reporting to steering committees

ENVIRONNEMENT TECHNIQUE

Angular | Java | React | APIs

RÉALISATION Within the Information Systems Direction, I contributed to the transformation of the digital bank subscription journey (self-care and store), as part of a web overhaul, within an IT team of more than 10 collaborators.

Functional Analyst (Consultant)

Mars 2018 — Janvier 2019

Extia (BforBank Mandate), France — www.bforbank.com

KEY CONTRIBUTIONS

- Facilitating and coordinating agile ceremonies (planning, estimation, demo and retrospective during the sprint)
- Coordination with the Product Owner for prioritizing US and preparing the backlog for development teams
- Writing User Stories and functional specifications
- Development of test cases and test tracking for BforBank mobile applications
- Corrective maintenance tracking with ticket prioritization, tests and anomaly validation
- Production support and deployment on iOS and Android app stores
- Management of external providers (roadmap planning, implementing functional evolutions, anomaly management...)

ENVIRONNEMENT TECHNIQUE

Swift | Kotlin | Java | Spring Boot

> **RÉALISATION** Within the Information Systems Direction, I contributed to the management of RUN (functional evolutions, corrective maintenance...) on the mobile banking scope of 4 apps: BforBank mobile banking, BforBank Stock Trading, Mes Banques, Bcheck.

Product Owner Mobile

Septembre 2016 — Septembre 2017

Malakoff Humanis (Ex Malakoff Mederic), France — www.malakoffhumanis.com

KEY CONTRIBUTIONS

- Write requirement expressions and validate functional specifications.
- Create prototyping and storyboarding of customer journeys.
- Manage acceptance testing and non-regression tests for mobile applications.
- Manage external providers and respect planning deadlines.
- Publication/Configuration on Apple and Android stores.

ENVIRONNEMENT TECHNIQUE

Swift | Kotlin | Node.js | Java

> **RÉALISATION** Within the Digital Direction, I contributed to the management of the product backlog and the implementation of functional evolutions for the TOUTM mobile application for iOS and Android in an agile cycle.

Assistant Digital Project Manager & Web Marketer

Octobre 2015 — Septembre 2016

Liveli by Sodexo (Ex BBbook - Crèche Attitude), France — www.creche-attitude.fr

KEY CONTRIBUTIONS

- Participation in the migration project of BBbook services to the Creche-attitude.fr website (user journey analysis, future functionalities, wireframe design).
- Contribution to writing specifications and testing new functional features.
- Implementation, monitoring, and optimization of various traffic creation levers (SEA, SEO, retargeting).
- Conducting an SEO audit of the www.BBbook.fr website (optimization actions and recommendations).
- Reporting and audience analysis of digital campaigns.

ENVIRONNEMENT TECHNIQUE

Google Analytics | Google AdWords | SEO | SEA

> **RÉALISATION** Au sein de la Direction Digital & Marketing, j'ai intégré la société BBbook - Crèche Attitude (l'expert parentalité) en tant qu'Assistant Digital Project Manager & Web Marketer. J'étais en charge de gérer les projets web, d'analyser et optimiser le trafic SEO/SEA de l'entreprise.

Assistant Chef de Projet Digital

Septembre 2014 — Septembre 2015

Crédit Agricole Corporate and Investment Bank, France — www.ca-cib.fr

KEY CONTRIBUTIONS

- Participation in the evolution of online supports (website and intranet) through recommendations and benchmarking.
- Management of user tests for a web application (Media Library: CACIB image bank).
- Creation of a user guide for the Media Library application.
- Implementation of activity reporting on social media, internet, and intranet.
- Participation à la création d'un site WordPress et formation des contributeurs à l'outil de publication.
- Assistance aux projets graphisme et webdesign sur les divers supports de communication interne et externe (web, print, PAO/PreAO, animation).

ENVIRONNEMENT TECHNIQUE

WordPress | Adobe Creative Suite | HTML / CSS

> **RÉALISATION** Within the Communication Direction, I joined Crédit Agricole Corporate and Investment Bank as an assistant digital project manager. My missions were to intervene on the various web and webdesign projects of the digital direction.

REFERENCES

Dario Carpetti — Hydro-Québec, Montréal | Mars 2023 — Juillet 2025
Delivery Manager, Hydro-Québec — Poste occupé : Functional Analyst

> "Davy is an exceptional resource with a very good capacity for detail. His analysis is meticulous, and his team spirit is impeccable. He respects the process, the mandate he is assigned to, and the given milestones. I recommend him to any team."

Monique P. — Desjardins, Lévis | Mars 2020 — Février 2022
Chargée de Projet TI chez Desjardins, Insurance Group - The Personal — Poste occupé : Functional Analyst

> "Davy demonstrated good adaptability. He knew how to take advantage of the resources around him to develop his skills and gain confidence in his files. This very large-scale project introduced him to various situations that he learned to adapt to. It was a pleasure to work with Davy."

Antoine St-Onge — Hydro-Québec, Montréal | Mars 2023 — Juillet 2025
Chef d'équipe, Direction Solution Auto — Poste occupé : Functional Analyst

> "Having worked for more than 6 months with Mr. Gnanavelan as a Functional Analyst within my direction, I confirm that Davy has excellent technical aptitude in his role. He is able to understand business needs, write his functional files well, and also make information clear to the development team. Davy was able to handle complex files within our direction and the property insurance modernization program at Desjardins. Also, Davy is someone who wants to constantly learn and takes charge of his career according to the goals he sets for himself."

Mathieu M. — BforBank, France | Mars 2018 — Janvier 2019
Application Domain Manager for Mobile Applications at BforBank — Position held: Mobile Functional Analyst

> "Working with Davy is a real pleasure; he shows enthusiasm on a daily basis. Davy has a sense of service and is always inclined to move his subjects forward."

Aurélien P. Malakoff Médéric, France | Sept 2016 — Sept 2017

Web and Mobile Project Manager at Malakoff Médéric — Position held: Product Owner / Mobile Project Manager

> "I had the chance to be Davy's tutor during his final year of apprenticeship. He assisted me on the mobility scope of my Individual Customer Space activity, as PO / project manager. Davy knew how to quickly take charge of the scope, interactions with suppliers, and ensure timely delivery. He demonstrated diplomacy and professionalism in the face of difficulties. I therefore recommend Davy for a future mission of the same type or with development prospects."
